

Washington workers' compensation insurance

3 things to know about L&I's Medical Provider Network

If you get injured at work in Washington:

- 1** For emergency care or a first visit when your injury claim is filed, you can see the doctor of your choice.
- 2** For ongoing treatment, you must see a network doctor.
- 3** Use **www.Lni.wa.gov/FindADoc** to confirm that your doctor is in the network or to find a network doctor.

www.Lni.wa.gov/NetworkInfo for common questions and answers.

The Department of Labor & Industries (L&I) created the network to improve quality of care and help injured workers quickly return to good health and their jobs.
